  - Name, title/field, location, institution
  - In the spirit of reflecting on the year ending, what is a project or collaboration you have enjoyed in 2022?
- 3. Virtual Lab Tour, 30 min** — We have put out the call to the IWG for virtual lab tour presenters. We are excited to add these to our upcoming meetings to get to check out some different labs and hear about the space, setups, and workflows.

He is responsible for condition photography and scientific visualizations of cultural heritage works for the conservation staff. With a decade-long career in photographic science behind him he brings a highly technical approach to the conservation imaging studio, concentrating on detail and accuracy through imaging.
